

# LEED Credits Available for **Qualideck**<sup>®</sup>

Advanced Polymer Technology is dedicated to supplying its customers with quality products that not only possess exceptional physical properties, but also contribute to a “greener” environment.

The following products could help in contributing towards gaining LEED points and certification:

## **Regional Material: 1-2 points**

APT manufactures its products in Harmony, Pennsylvania. If your project site is within 500 miles from this location then APT products can contribute towards LEED points.

## **Rapidly Renewable Materials: 1 point**

Qualideck Products

Q152 ≈ 44.74%

Q372 ≈ 23.56%

Q582 ≈ 22.58%

## **Low Emitting Materials: 1 point**

Qualideck Products

Q152 VOC≈ 7.1 g/L

Q252 VOC≈ 7.7 g/L

Q372 VOC≈ 20.5 g/L

Q582 VOC≈ 20.23 g/L

For project certification requirements, please refer to [www.usgbc.org](http://www.usgbc.org).
